WOMEN WORKERS. Many matters of special interest to women workers are dealt with in the Women's Work Section of the WEEKLY IRISH MES To-day. WHAT EVERY WOMAN KNOWS PERFECTION ODOURLESS HEATING

must rest on a foundard of fact. For three generations women of experience have learned of the efficacy-of Beecham's Pills for the ills that beset their sex. Many are but symptoms of a disordered digestive system. Organs far removed are affected through sympatily. If you are teeling rundown or suffer from pains that unit you for your tasks, if housekeeping is a drudgery to you, or work at your daily vocation a torture, don't continue to be a martyr, but cure yourself—casily, apeedily, inexpensively. See what

BEECHAM'S PILLS

will do for you. See how readily they will correct irregularities that are causing you so much pain and inconvenience. Woman has ne greater friend. Millions can testify to the vast good they have received from a judicious use of this wonderful remedy. Begin at once. Cleanse the organs of the body. Get your bowels working right, your liver active, your stomach perfect. Get your blood circulating joyously. The rest will follow as a matter of course. You too, will belong to the great army of people who say that Beccham's Pills

ARE A FRIEND IN NEED. Price 1/11 (56 pills) and 2/9 (168 pills).

POST

News, says the Paris Correspondent of The Fines, was a magnificent, crushing retort to the Germans, who, by their own showing, selected yedun as the likeliest battle-ground on which to paralyse the vitality of our Allies, and bring them to their knees. In a few hours the efforts of as many months, susteined at ruinous cost, were cancelled, and the French Army has now practically the positions held by it at the end of May. A couple of months ago at Verdun a distinguished French General prophesied to your correspondent that as soon as they were reinforced with heavy guns the poilus would have their recanche, and go through the German lines forced with heavy guns the poilus would have their recanche, and go through the German lines as through butter. His words have come true. At a single bound the French operating along a twe-mile front crumpled the enemy positions to a depth of nearly two miles, and captured 4,000 prisoners. How cleverly the German High Command were hoodwinked is evident from the following fact: During the last three weeks the Germans have been holding two divisions in the rear of Verdun ready to reinforce the troops in any sector attacked by the French. Last Wedneday, believing that our Allies had renounced any offensive schemes before Verdun, the German Command despatched the two divisions in sustion to the Bapaume front, and thus missed

THE COAL OUTPUT. THE COAL OUTPUT.

If the output of coal, says The Times, depended on yesterday's conference, and on those who sttended it, a substantial increase might conidently be expected. It was a fine meeting, attended by representatives of the whole mining industry from Kent to the North of Scotland, and it was animated by a fine spirit. There was no jarring word, and the resolution pledging owners and men to do everything in their power to increase the output by co-operation was carried without a dissentient. But results do, not depend on resolutions passed at Westminster; they depend on the men in the colliery villages scattered over our varied and extensive coalfields. The main thing is to increase the output. The policy put before the meeting, and adopted, is that of inducing the tempt by moral suasion to work more regularly. If smillie said yeaterday that miners are exempted in order to get coal. If they do, not get it, they have no right to exemption. If

Reviewing the reminiscences of the Right Hon. Lord O'Brien, edited by his daughter. The Times Literary Supplement hears testimony to the kindliness and the honesty, the modesty and the courage of the personality here revealed. It is odd that the men who arouse the most violent storms in public life, who are most fiercely denounced on the one hand, and inconsequence most sturdily supported on the other, are nearly always personally very charming. One gets the impression from this volume that Lord O'Brien was no exception. The book is so unpretentiously written that it is like talk, that Lord O'Brien was no exception. The book as ounpretentiously written that it is like talk, and, with one's imagination helped by an excellent photograph, one seems to see, while listening, as it were, to the anecdote, a simple, manly, vigorous person with twinkling eyes and a touch of genial cynicism, fond of his horse and fond of his joke. The book is simply what it claims to be, a volume of reminiscences, and not an autobiography.

PROBLEMS AND CHANCES.

(BY RUDYARD KIPLING.)

THE doorkeepers of Zion,
They do not always stand
In helmet and whole armour,
With halberds in their hand;
But, being free of Zion
And all ber mysteries,
They rest awhile in Zion,
Sit down and smile in Zion,
Ay, even jest in Zion,
In Zion at their ease.

The gamekeepers of Baal,
They dare not sit or lean,
But fume and fret and posture
And foam and curse between;
For, being bound to Baal,
Whose sacrifice is vain,
Their rest is scant with Baal;
They glare and pant for Baal,
For Baal in their pain.

But we will go to Zion
By choice and not through dread,
With these our present comrades
And those our present dead;
And, being free of Zion
In both her fellowships,
Sit down and sup in Zion—
Stand up and drink in Zion
Whatever cup in Zion
Is offered to our lips.

of swept round sharp to their left, fring
redoes from their port or left-hand tubes,

in flames and debris. But one of the flotilla

Yesterday's French communiqué:

There has been an intermittent bombardment on the front generally. There has been no infantry action except in the centre.
German attacks made in the Muchukaro sone were shattered by our fire.

Two enemy aeropianes were compelled to alight in a damaged condition as the result of combats with our pilots.

In the region of Goridz-Pernill, in Southern Albania, the cavalry of the Salonika Army have effected a junction with the cavalry of the Italians coming from Valona.

Tuesday's Bulgarian communiqué:

There is no change in the situation on the whole front.

Between Lake Prespa and the Struma there has been weak artillery activity. The enemy's advance on Garnova was stopped at the outset.

On the Struma front there has been lively factivity by detachments of scoula, and at places there has been artillery fire.

Along the Kgean coast an enemy cruiser bombarded, without result, for two hours the Gulf of Karmedi, west of the motul of the Nesta.

A German avaator, Lieut, von Emvefek, after half an hour's sir engagement, brought down near Drama a British biplane of a Nieuport model, the pilot of which, wounded, and the observer, unwounded, were captured.

Mr. LLOYD GEORGE, replying in the House of Commons yesterday to Sir H. Dalziel, said the Rumanian official communiqué announced that it had proved necessary to evacuate Constanas. The Government had no more recent information. We and our Allies were working information.
